Abstract

abstract-text

1 Motivation

150-175 words
background information what work already exists in this areas.. strenghs and defiencies?
How would further work adcance our kjnowlegde of weder areas of study
is an entirely new areas of study or is it being oped up? why is it important?
Where should i start from?

2 Objectives

why is this worthy of further exploration
demo my appreciate the main areas of debate around the topic and show your propused research how to contribute to the further debate.
The aims are ? WHY in precise fashion.

3 Methodology

The how?? - state the main planks og my thinking - how will i put them together
Any declarations?
inclusion criteria exclusion criteria
Materials required? - data and weigths

4 Milestones

5 (Expected) Analyses and Results

6 Related Work

7 Conclusion
